<b>Bugzilla-Id:</b>	2947		
<b>Description</b>			
We need to add the UNCC collection records to the database. We will do this first with static records, but might migrate to dynamics records in Specify. In theory data are being prepared at Appl State by Zach and his student Derick Poindexter. They should have been finished over 6 months ago. We may need to capture these data and do the work ourselves. It should be relatively easy.
