

Morpho - Bug #297

Problem with data Export from Metacat

10/16/2001 11:28 AM - Dan Higgins

Status:	Resolved	Start date:	10/16/2001
Priority:	Immediate	Due date:	
Assignee:	Dan Higgins	% Done:	0%
Category:	morpho - general	Estimated time:	0.00 hour
Target version:	Beta2	Spent time:	0.00 hour
Bugzilla-Id:	297		

Description

If a dataset which includes a data document is inserted into production Metacat context and then 'Exported' the export of the data document appears to work (because there is also a local copy?) However, if local dataset is deleted and then one 'Exports' from Metacat, the data document contains an error message rather than the data!

It is currently not clear whether this is a Morpho or a Metacat problem. Thus, this error has been entered to both.

History

#1 - 10/16/2001 12:31 PM - Dan Higgins

The document returned contains (rather than original data):

```
<h1>Error: 500</h1>
<h2>Location: /knb/servlet/metacat/</h2><b>Internal Servlet
Error:</b><br>
```

```
java.lang.IllegalStateException: OutputStream is already
being used for this request
