

InfoVeg - Bug #2970

LA Atlas

09/23/2007 04:57 PM - Robert Peet

Status:	New	Start date:	09/23/2007
Priority:	Normal	Due date:	
Assignee:	Alan Weakley	% Done:	0%
Category:	atlas	Estimated time:	0.00 hour
Target version:	Unspecified	Spent time:	0.00 hour
Bugzilla-Id:	2970		
Description			
The LA atlas data have been delivered for possible inclusion. However, it is not obvious how to handle these data. We need to work out which concepts to attach to each identification, and we need to decide whether to handle these as specimen data or as publication data. Alan needs to suggest a plan of action before we proceed. Meanwhile, the data are stored on bioark.
