Target version:	1.8		**Spent time:**	0.00 hour
Bugzilla-Id:	2993			

Description

Permission Order is always set to 'allowFirst'. Even if you send 'denyFirst, it will save 'allowFirst' to the access table.

History

#1 - 11/02/2007 01:13 PM - Chris Barteau

Fixed by removing quotes around reference to the constant "AccessControlInterface.DENYFIRST" in the constructor of class "edu.ucsb.nceas.metacat.AccessControlForSingleFile".

#2 - 11/07/2007 02:58 PM - Jing Tao

Move to 1.7.1
