InfoVeg - Bug #3004

TEST: Allow resampling of ANY plot

11/16/2007 10:51 AM - Michael Lee

Status:	Resolved		**Start date:**	11/16/2007
Priority:	Normal		**Due date:**

Bugzilla-Id:	3004			

Description

Currently, resampling plots is limited to plots with individual stems. But any plot can be resampled, just no preprinted datasheets can be generated, other than perhaps location information. Giving the next set of investigators a species list is probably bias-inducing.

History

#1 - 03/28/2008 12:12 PM - Michael Lee

This has been address, but not tested thoroughly in version 2.2.4_p0327_mid7.zip

#2 - 07/18/2008 10:36 AM - Michael Lee

any plot can now be resampled, regardless of what plot level and whether or not there are planted stems.
