

SANParks Informatics - Bug #3007

Create SAEON skin with same/similar features as SANParks skin

11/17/2007 06:46 PM - ben leinfelder

Status:	Resolved	Start date:	11/17/2007
Priority:	Normal	Due date:	
Assignee:	ben leinfelder	% Done:	0%
Category:	general	Estimated time:	0.00 hour
Target version:	Unspecified	Spent time:	0.00 hour
Bugzilla-Id:	3007		
Description create new skin with a SAEON look and feel but with all the sanparks capabilities. for left hand nav (node selection), make sure saeon nodes are above sanparks nodes. see http://www.saeon.ac.za/ for L+F			

History

#1 - 12/06/2007 07:45 PM - ben leinfelder

initial draft of the Saeon look and feel is committed. still want to go through the extra .css file to remove references to <http://www.saeon.ac.za/>.... for many of the images used in the skin. either remove those completely, or just save a local version in the metacat skin.

#2 - 12/10/2007 12:53 PM - ben leinfelder

- added login/logout in the header area (checks session for valid user object)
- removed references to external images (saeon urls)
- made some adjustments after looking at the skin in IE.

ready for feedback and testing.

#3 - 08/17/2009 02:06 PM - ben leinfelder

deployed in various nodes in SA
