Target version:	Unspecified	Spent time:	0.00 hour
Bugzilla-Id:	3016		
Description			
The NCEAS skin needs to have the current user login status, so that users can identify their current status, and log out if needed to change credentials.			

History

#1 - 11/26/2007 11:20 AM - Shaun Walbridge

Imported Sid's fix for this problem from the ESA skin. Uses an AJAX request to check on current user state. A text block element defaults to 'Login', but after query is changed to 'Logout' if an active session is found.
