

Kepler - Bug #3061

Need IPCC data by month

01/11/2008 12:06 PM - Dan Higgins

Status:	Resolved	Start date:	01/11/2008
Priority:	Normal	Due date:	
Assignee:	Chad Berkley	% Done:	0%
Category:	actors	Estimated time:	0.00 hour
Target version:	1.1.0	Spent time:	0.00 hour
Bugzilla-Id:	3061		

Description

The ClimateFileProcessor and ClimateChangeFileProcessor actors are custom actors for reading IPCC climate data. The data is stored in a single file with 12 grids, one for each month. Currently these actors return either annual or seasonal values by averaging the monthly data.

The ability to return the data for a specific month has been requested, rather than averaging over several months or a year.

History

#1 - 02/20/2008 11:25 AM - Dan Higgins

The ability to get data by month has been added to the ClimateFileProcessor and ClimateChangeFileProcessor actors.
