

InfoVeg - Bug #3064

DBA: check that plot names match project code

01/12/2008 12:26 PM - Michael Lee

Status:	Resolved	Start date:	01/12/2008
Priority:	Normal	Due date:	
Assignee:	Michael Lee	% Done:	0%
Category:	EntryDB	Estimated time:	0.00 hour
Target version:	Unspecified	Spent time:	0.00 hour
Bugzilla-Id:	3064		
Description			
SQL to accomplish that: SELECT project.projectName, project.entry_projectCode AS [project Code], observation.authorObsCode AS obsCode, observation.authorPlotCode AS plotCode_entry, plot.authorPlotCode AS plotcode_archive, IIf(startsWith([observation].[authorObsCode],[entry_projectCode] & "-") And startsWith([observation].[authorPlotCode],[entry_projectCode] & "-") And startsWith(nz([plot].[authorPlotCode],[entry_projectCode] & "-"),[entry_projectCode] & "-"),True,False) AS allOK FROM (observation LEFT JOIN plot ON observation.PLOT_ID = plot.PLOT_ID) LEFT JOIN project ON observation.PROJECT_ID = project.PROJECT_ID;
