Target version:	1.0.0rc1		**Spent time:**	0.00 hour
Bugzilla-Id:	3093			

Description

The JUnit test org.nddp.TestCollectionIOPort does not compile, and has been renamed to TestCollectionIOPort.javaDISABLED in the repository.

The error message is:

org.nddp.TestCollectionIOPort.ComponentEntity_Local is not abstract and does not override abstract method removeInitializable(ptolemy.actor.Initializable) in ptolemy.actor.Initializable

I will try to fix this tomorrow, 1/23/2008.

History

#1 - 01/23/2008 04:55 PM - Timothy McPhillips

I added (empty) addInitializable() and removeInitializable() methods required by the ptolemy.actor.Initializable interface. The class now compiles fine and the tests run successfully. I renamed TestCollectionIOPort.javaDISABLED back to TestCollectionIOPort.java.
