Bugzilla-Id:	3102		
Description			
<p>We included a set of R executables for Windows as of beta3 and plan on doing so also for RC1. However, we do not include R for the Mac or Linux.</p> <p>We need to consider whether we want to include the binaries as part of the installer. Mac installer is about 58 MB so there is a size issue. (Also do we want to include even the Windows version in CVS for nightly build?)</p> <p>Dan Higgins - Jan 2008</p>
