Description

The Kepler user manual docs (chapter 6) have link to:
<http://seek.ecoinformatics.org/Wiki.jsp?page=EarthGridPortal>
which in turn has a link to:
<http://ecogrid.ecoinformatics.org/ecogrid/advancedQuery.jsp>

This search returns no data for KNB. Jing and I suspect it is due to the change in ecogrid query service names. The search should probably be updated to reflect those new endpoints. Also note that it has an option for searching GEON, too. The GEON service has not been operational for sometime, and could also be commented out, at the very least.
