Target version:	1.0.0	Spent time:	0.00 hour
Bugzilla-Id:	3162		
Description			
<p>ptExecuteConfig.xml, used by ptexecute, depends on basicKeplerLibrary.xml, which was recently removed from CVS. I tried pointing it at configuration.xml, but got errors.</p> <p>Since ptexecute runs workflows from the command-line, does it need the actor library information?</p> <p>(Note: ptexecute may not run due to bug 3097.)</p> <p>--dan</p>
