Bugzilla-Id:	3168		
Description Failure in requesting revision of docid: esa.46.1 (Unable to insert the review on Metacat for the docid:esa.46.1) 1 data set(s) found for moderation I filled out the revision request form with this text and got a failure in requesting revision report. "Hi Aaron, Thank you for submitting you ESA data registration. We are having some problems with the display of some of the characters in your abstract description. Currently the < > symbols need to be typed out as words and the symbols inside some of your parentheses are a problem. Can you please try retyping the parts that do not display well. Also, when you know what the complete text for your ESA paper citation is, please add that to the "Additional Information area". Feel free to let me know if you need any help or have any questions. Callie bowdish@nceas.ucsb.edu "
