History

#1 - 06/03/2008 05:03 PM - Callie Bowdish

This is an example of an email that is sent from esa. When the link is used (with the user logged in on the browser) the error in the previous comment happens when trying to update the form
----

Dear Callie Bowdish,

Upon review, we feel that the metadata entry for your article submission,
Test ESA edit Mon June 11:37, is still missing some relevant information. Please read the
reviewer's comments below for any suggested additions and changes. You are strongly
encouraged to go back and address these issues with your entry. You can login,
edit, and resubmit your entry at http://chico.dyndns.org/cgi-bin/register-dataset.cgi?stage=modify&cfg=esa&docid=esa.3.

Reviewer's Notes:

#2 - 06/03/2008 05:18 PM - Callie Bowdish

There is a problem with the ESA path in the email that is sent out on the ESA metacat. The path does not include the version number of the data package id. When the requested changes are submitted on the form they are not able to be saved because the id version number is not included.

#3 - 06/03/2008 05:23 PM - Callie Bowdish

- Bug 3168 has been marked as a duplicate of this bug. ***

#4 - 06/04/2008 11:44 AM - Shaun Walbridge

Added the document revision to link, now inserts updated documents correctly.
