Kepler - Bug #3209

ecogrid SearchRegistryAction error when disconnected from network

04/04/2008 10:00 AM - Daniel Crawl

Status:	Resolved		**Start date:**	04/04/2008
Priority:	Normal		**Due date:**

Target version:	1.0.0		**Spent time:**	0.00 hour
Bugzilla-Id:	3209			

Description

About 30 seconds after starting kepler with no network connection, a long error
message is displayed, starting with:

```
[java] ERROR (org.ecoinformatics.seek.ecogrid.SearchRegistryAction:queryRegistryRewriteConfig:210)
 problem looking up registry entries using endpoint:
```
http://knb.ecoinformatics.org/registry/services/RegistryService

Most likely caused by the fix for 3124.

History

#1 - 04/04/2008 10:06 AM - ben leinfelder

sounds like some error catching is in order. should there be an alert using MessageHandler (attack of the pop up window!) or should it just log the error and move on with life?

#2 - 04/07/2008 01:48 PM - Daniel Crawl

I'd say show an alert when something is trying to use a data source, e.g. the ecogrid actor. Otherwise, ignore it.

#3 - 04/08/2008 10:02 AM - ben leinfelder

added messagehandler error reporting when the services registry is not available.
if, on start up, there is an error accessing the registry, an alert is shown (in kepler gui mode, at least).

#4 - 04/15/2008 03:17 PM - Daniel Crawl

I'm reopening this since the error window now occurs regardless of any data sources actually being used (either the Data tab or ecogrid actors).

This seems low priority so could be re-targeted to 1.1.

#5 - 04/16/2008 03:40 PM - Chad Berkley

retarget to 1.1

#6 - 04/16/2008 04:23 PM - Jing Tao

The short term solution is just removing the error message. Kepler will keep silent if it couldn't connect to the registry.

The long term solution is assigned to bug 3228.

#7 - 04/17/2008 05:28 PM - Jing Tao

Remove the error message panel and decrease debug level from error to warn in src/org/ecoinformatics/seek/ecogrid/SearchRegistryAction.java
class. Now if kepler couldn't contact registry because of network disconnection and it will keep silence.
