Description			
When the SANParks, South Africa and Kruger National Park, South Africa keywords were added (in bulk) to the dataknp.sanparks.org metacat deployment, the packagelds contained in the EML were not updated to reflect the updated document Id (as Metacat know them).			
The package Ids should be synchronized.

History

#1 - 07/28/2008 02:33 PM - ben leinfelder

reworked script to synchronize packagelds with doclids.
33 documents on the sanparks server will be updated (those are replicated to knb).
documents with matching ids will not be touched.

waiting for go ahead from judith.
