

## Kepler - Bug #3261

### ApplicationFramework/CredentialRetrieve workflow has problems

05/01/2008 01:49 PM - Derik Barseghian

<b>Status:</b>	Resolved	<b>Start date:</b>	05/01/2008

<b>Target version:</b>	1.0.0	<b>Spent time:</b>	0.00 hour
<b>Bugzilla-Id:</b>	3261		
<b>Description</b>			
I think this needs to be fixed or removed for release.			
To reproduce (on Ubuntu running Kepler from Chad's latest installer at least):			
1)Open ApplicationFramework/CredentialRetrieve.xml.			
2)Run.			
3)Click cancel on the login dialog box.			
Problems:			
1) workflow continues to execute without stopping			
2) If you try to open any other Kepler workflows, the Kepler Open dialog box appearance has changed; it now looks like the CredentialRetrieve password dialog box.

#### History

##### #1 - 05/01/2008 01:57 PM - Chad Berkley

I've seen that change of UI look and feel before on linux. I'm not sure what causes it.

I think we can remove this workflow. I don't think anyone is supporting GAMA anymore. I don't even think the GAMA server is running. Anyone disagree? Ilkay, do you know the status?

##### #2 - 05/02/2008 10:07 AM - Chad Berkley

I removed this workflow since no one commented.

##### #3 - 05/07/2008 04:09 PM - Aaron Aaron

verified, file has been removed from windows and mac v3 installer
