#### Description

DarwindCore actor in demos/ENM/DarwindCore\_test.xml work-flow takes forever to downloading data (more than two hours) in mac. However, DarwinCore actor in demo/ENM/garpModel\_ImageJ\_withData.xml can download data in couple minutes. I deleted the cache before the both downloading.

I compared the end point of both actors, they are same. I have no idea one works but another one doesn't.

Can we remove the DarwinCord\_test work-flow from the release?

#### History

##### #1 - 05/09/2008 02:58 PM - Jing Tao

change to 1.0.0

##### #2 - 05/12/2008 12:33 PM - Chad Berkley

I put a general disclaimer in the demos directory so that this will not delay the release.
