Target version:	Unspecified	Spent time:	0.00 hour
Bugzilla-Id:	3315		
Description			
If you start with scores selected, which it is by default, then select Responses, and then unselect Responses, the next button will be disabled, even though it should be enabled.			

History

#1 - 05/23/2008 10:21 AM - Ryan McFall

This was a simple fix - we had a variable keeping track of how many types of data were selected, and it was initialized to zero. Since we made scores selected by default, this variable had to be initialized to 1.
