

FIRST - Bug #3328

Change cursor during DataSourceSelection browse

05/27/2008 01:02 PM - Ryan McFall

Status:	Resolved	Start date:	05/27/2008
Priority:	Normal	Due date:	
Assignee:	Ryan McFall	% Done:	0%
Category:	client	Estimated time:	0.00 hour
Target version:	Unspecified	Spent time:	0.00 hour
Bugzilla-Id:	3328		
Description			
It takes a while for the dialog box to come up when browse is clicked on, or auto invoked. We should use the hour glass cursor to indicate this so that users know what is going on.			

History

This is now handled by the wizard framework; the hour glass comes up after next/previous is clicked. We might consider letting each page change the cursor, or at least tell the wizard framework whether it expects to take a longer period of time to load, and then only do it on those pages. For now it's OK the way it is, I think.
