Target version:	1.9	Spent time:	0.00 hour
Bugzilla-Id:	3379		
Description			
Make sure ecogrid works completely in turnkey installation.			

History

#1 - 08/27/2008 02:44 PM - ben leinfelder

Some issues that have already been resolved:

- removed extra metacat.properties file that was created for ecogrid during the old build process. now the PropertyService method is used within the ecogrid implementations for Metacat.
- include utilities jar when compiling ecogrid

#2 - 10/02/2008 11:09 AM - ben leinfelder

found some inconsistencies in the metacat implementation of the services WRT looking up metacat properties: many property names have had prefixes prepended to them. fixed those...will redeploy to dev for more testing.

#3 - 10/03/2008 11:23 AM - ben leinfelder

Current state of tests:

- AuthenticatedQueryServiceClientTest - 1 FAILURE (querying for the final document inserted fails - I believe it is because the search restricts the results too heavily and the test document is not returned)
- AuthenticatedQueryServiceGetToStreamClientTest - FAIL (cannot upload data files - there is a temporary file path issue that mike is looking into)
- AuthenticationServiceClientTest - SUCCESS
- IdentifierServiceClientTest - SUCCESS
- PutServiceClientTest - FAILUREs due to above data upload error.
- QueryServiceClientTest - query FAILS like in the authenticated version
- QueryServiceGetToStreamClientTest - FAIL because of data upload error

#4 - 10/24/2008 05:21 PM - ben leinfelder

tests are performing well.

I believe the query service tests are having problems because the search results get cached...so the new document is not found (there are tons of matches for the dataset title - so that part of the test succeeds while the actual docid test does not). this is my theory...

#5 - 10/31/2008 10:42 AM - ben leinfelder

added 3 second sleep between document insertion and query - now the QueryService tests are successful

#6 - 10/31/2008 10:42 AM - ben leinfelder

TODO: add 2.1.0 EML test documents to the test suite

#7 - 10/31/2008 11:34 AM - ben leinfelder

added EML 2.1.0 documents to seek test suite.
tested against dev

#8 - 03/27/2013 02:23 PM - Redmine Admin
