Description			
Data Catalog Map and IE (Internet Explorer 7.0.5730.11) brings up pop up windows that can be a problem. Most of them go away after following the instruction to downloading the add-on: 'MSXML 5.0' from 'Microsoft Corporation'. There are a number of dialog boxes that need to be responded to in the process. I will attached a file with the snapshots of some of the dialog boxes.

Screen shot information for this bug

#2 - 06/10/2008 11:34 AM - Callie Bowdish

Please note the Manage Add-ons window does not pop up in the process, but disabling the XML DOM Document 5.0 will bring up the same dialog boxes.
