Kepler - Bug #3407

reset debugging windows, add timestamps

06/20/2008 11:20 AM - Daniel Crawl

Status:	New		**Start date:**	06/20/2008
Priority:	Normal		**Due date:**

Target version:	3.X.Y		**Spent time:**	0.00 hour
Bugzilla-Id:	3407			

Description

The contents of the 'Listen to Port' and 'Listen to Actor' windows cannot be erased. It would be useful to erase them between workflow runs.

It would also be nice to (optionally) have a timestamp for each line of output.
