

Metacat - Bug #3413

Sort order of returned resultsets needs to be standard

06/23/2008 02:59 PM - Chad Berkley

Status:	Resolved	Start date:	06/23/2008
Priority:	Immediate	Due date:	
Assignee:	Jing Tao	% Done:	0%
Category:	metacat	Estimated time:	0.00 hour
Target version:	1.9.1	Spent time:	0.00 hour
Bugzilla-Id:	3413		
Description			
Metacat seems to sort the returned search results in different ways, which causes problems with paged query returns. Either the search results should always be sorted by docid or the search criteria should be included with the request.
