### History

#### #1 - 06/27/2008 05:02 PM - Michael Lee

I have added:

For Levels 1-3, the name of the reach should be recorded for each plot to reflect the new EEP emphasis on stratification of monitoring plots by reach.

to the protocol document (version 4.1.6) but it would be nice to add a bit more about what the reach is and how to determine what name to write. Emailing Steve...

#### #2 - 06/30/2008 03:28 PM - Michael Lee

added to datasheets, level 3, version 44

still need to add in entry tool.

#### #3 - 06/30/2008 04:07 PM - Michael Lee

done in entry tool version 2.2.6p0630\_mid2

still might add a bit to protocol about what a reach is, and entry tool/datasheets

#### #4 - 07/15/2008 02:36 PM - Michael Lee

I have added reach comments to the protocol. Datasheets don't have room for any more info, but reach definition was added to entry tool, v226\_p0715\_mid2.

#### #5 - 07/16/2008 11:54 AM - Michael Lee

now requiring reach on datasheets for levels 1-2 and entry tool v226\_p0716\_mid1
