

Morpho - Bug #344

need larger boxes for entering paragraphs

11/29/2001 06:57 PM - Matt Jones

Bugzilla-Id:	344		
Description			
Many places in morpho require the user to enter paragraphs of information, but display these fields as one line text fields. These need to be changed throughout to be appropriately sized text entry areas.			

History

#1 - 12/10/2001 05:21 PM - Chad Berkley

added support for 'multiline' input boxes in the editor. now you can specify a textbox with an attribute of multiline="yes" and it will use a textArea instead of a textField when creating the wizard screen. There is now a bug where the new multiline boxes do not repeat correctly. This shouldn't be too hard to fix though. I'll continue working on it.

#2 - 12/11/2001 10:46 AM - Chad Berkley

fixed the last part of this bug. the text area fields now repeat correctly. it is now done.
