### Description

If we say no to requirement to upload external files, go to ReviewColumnAssignments, and then click previous, a NullPointerException is thrown with the following stack trace:

```
at edu.msu.first.dataimport.gui.AssignExternalFiles.setWizardData(AssignExternalFiles.java:494)
    at edu.msu.first.dataimport.gui.AssignExternalFiles.&lt;init&gt;(AssignExternalFiles.java:149)
    at edu.msu.first.dataimport.gui.Controller.getPreviousPage(Controller.java:249)
```

Note that we really shouldn't have gone back to AssignExternalFiles
