

Morpho - Bug #3482

Morpho options hang up on Ubuntu 8.04 platform

09/03/2008 04:21 PM - Rick Reeves

Status:	Resolved	Start date:	09/03/2008

Bugzilla-Id:	3482		
Description Running Morpho 1.6.1 on Ubuntu 8.04, on Vis Lab workstation. JRE 1.5.0.15 installed. Run from the command line, Morpho starts normally. Login sequence works correctly. But once logged in, when user selects one of the three 'Work with your data' options, the next window that appears is just a blank gray window. The Morpho process must be killed from command line (via ^C) to remove the blank screen (and main Morpho window). Note: This Morpho/JRE combination works correctly under Ubuntu 7.10 on a similar hardware platform (Rick R's machine).

History

#1 - 08/12/2009 03:33 PM - Jing Tao

move to 1.7.1

#2 - 01/20/2010 03:15 PM - ben leinfelder

On my Ubuntu 8.04/JRE 1.5.0_15:
-downloaded 1.7.0 installer: no freezing
-ran from current SVN source: no freezing

Will make sure to run next release on my machine as well.

#3 - 01/21/2010 11:09 AM - Margaret O'Brien

This is Gastil's experience with Morpho 1.7 and ubuntu:

Using morpho-1.7.0 installed on Ubuntu 8.04 Hardy Heron
using JAVA_HOME = /usr/lib/jvm/java-6-sun/
(And java -version shows
java version "1.6.0_0"
OpenJDK Runtime Environment (build 1.6.0_0-b11)
OpenJDK Client VM (build 1.6.0_0-b11, mixed mode, sharing)

Login worked fine.
Search of packages worked fine.
Right-click on one package and select Open Package
and I get a gray window with moving butterfly in upper right.
10 minutes later, no change.
It does not freeze Morpho.
I can close the grey window with the corner-x;
no ^C on command line necessary.

#4 - 01/21/2010 11:15 AM - ben leinfelder

will try harder to break it - work with gastil to verify

#5 - 01/22/2010 10:58 AM - ben leinfelder

was a symptom of a different bug
