| Bugzilla-Id: | 3510 | | |
| Description | | | |
| Currently the classes are organized by the type of class, (service, utility, etc). They should be reorganized into a functional structure. | | | |

History

#1 - 08/04/2009 02:46 PM - Michael Daigle

Created replication, shared and database directories and moved code into there.

#2 - 11/18/2009 12:35 PM - Michael Daigle

Moved database, access control, properties, and replication related code into their own directories.

#3 - 03/27/2013 02:23 PM - Redmine Admin

Original Bugzilla ID was 3510
