FIRST - Bug #3518

Allow [re]editing of question-level metadata

10/08/2008 09:29 PM - ben leinfelder

Status:	Resolved		**Start date:**	10/08/2008
Priority:	Normal		**Due date:**	
Assignee:	ben leinfelder		**% Done:**	0%
Category:	general		**Estimated time:**	0.00 hour
Target version:	client-alpha2		**Spent time:**	0.00 hour
Bugzilla-Id:	3518			

Description

The content of the question items can be edited, but the concept categories, blooms taxonomy, etc... can only be edited upon initial parsing.
Need to expand the XML deserialization so that those metadata fields can be edited after the fact.

History

#1 - 10/08/2008 09:30 PM - ben leinfelder

Should only require a change to the parseXML() method in Question/ResponseItem

#2 - 10/17/2008 05:19 PM - ben leinfelder

This is complete. The categories can be edited after parsing.
