MouseExited logic not invoked when exiting scrollbar into PDFPane

10/13/2008 01:00 PM - Ryan McFall

Description

In SelectHeadersAndFooters, if the mouse enters the vertical scrollbar "knob" and then exits it to the left (that is, into the PDFPane), it stays painted in its "selected" state. Exiting the knob to the right or down into the other part of the scrollbar works correctly.

This is likely due to the mouseExited event not getting redispached to the scrollbar knob class.

History

#1 - 05/11/2009 07:20 AM - Ryan McFall

This is old and based on code that is no longer in use. (Resubmit after fire)
