#### Description

If you start with some file, then click next through to the vector rasterization page, and then try to go back and select a different file, the browse button is broken.

Likely in VectorImageRasterization.saveWizardData we need to disable the glass pane.

#### History

##### #1 - 10/23/2008 04:18 AM - Ryan McFall

I can't replicate this after the most recent updates I made to fix other bugs.
