

Morpho - Bug #3551

same screen presented to user before and after importing a data table

Bugzilla-Id:	3551		
Description When you first start to import a data table, you see a friendly screen saying you can save now or add a data table (with a link to that wizard). No problem there. But after you finish the data table description, you are returned to the same screen, and given the same link to add a data table. This is confusing - as if I never went through the data import wizard at all.
