

FIRST - Bug #3583

Allow new selection to be made when rectangle is selected

10/29/2008 07:21 PM - Ryan McFall

Status:	Resolved	Start date:	10/29/2008
Priority:	Normal	Due date:

Target version:	client-alpha3	Spent time:	0.00 hour
Bugzilla-Id:	3583		
Description			
Right now, if a rectangle is selected and the mouse is moved over a different rectangle and then clicked, the effect is only to cancel the current selection. Ideally in selected stage, the "hover" action should continue, and a new rectangle should be able to be selected.			

History
