

Morpho - Bug #359

new mechanism for editing XML attributes

11/30/2001 04:56 PM - Matt Jones

Status:	Resolved	Start date:	11/30/2001
Priority:	Normal	Due date:	
Assignee:	Matthew Brooke	% Done:	0%
Category:	morpho - general	Estimated time:	0.00 hour
Target version:	1.5	Spent time:	0.00 hour
Bugzilla-Id:	359		

Description

XML attributes are currently edited in a separate table which is typically visually unapparent to the user. Need a new, visually compelling and accessible way of displaying and editing XML attributes. It would be best if this were somehow folded into the tree display (elements and attribute might just have a different font or other differentiating display).
