

EML - Bug #3590

eml-documentation stylesheet problem with derived content.

11/03/2008 12:06 PM - Margaret O'Brien

Status:	New	Start date:	11/03/2008
Priority:	Normal	Due date:	
Assignee:	Matt Jones	% Done:	0%
Category:	eml - general bugs	Estimated time:	0.00 hour
Target version:	Unspecified	Spent time:	0.00 hour
Bugzilla-Id:	3590		
Description documentation for derived components is not being displayed correctly. see some info here: http://cvs.ecoinformatics.org/cvs/cvsweb.cgi/eml/eml-documentation.xsl also, see attribute info for UriType in eml-resource.xsd the content of the default attribute appears in under "How Many" instead of under "Default Value"			

History

#1 - 11/05/2008 02:24 PM - Margaret O'Brien

Another note on the bad behavior of the derived content template. go to associatedParty in this doc: /eml/docs/eml-2.1.0/eml-resource.html

the table cell contents are OK, but the link to is to resource.html#rp:responsibleParty, instead of party.html

#2 - 11/05/2008 03:54 PM - Margaret O'Brien

also docs/eml-2.1.0/eml-coverage.html#westBoundingCoordinate

#3 - 11/22/2008 09:48 AM - Margaret O'Brien

the value of minOccurs should show up in the documentation. e.g., that value is "3" for the grinpoint child here:

<http://knb.ecoinformatics.org/software/eml/eml-2.0.1/eml-coverage.html#datasetGPolygonOuterGRing>

#4 - 04/02/2009 10:36 AM - Margaret O'Brien

Open stylesheet bugs are now associated with EML's Utility component

#5 - 04/05/2009 07:26 AM - Margaret O'Brien

this bug pertains to schema documentation, so belongs with general bugs. The output is readable (although still no perfect) so leaving it open.
