I believe section headers are a must for this 2a1 release.
Headers and footers are more or less already there (the content of them is TBD)
Pagination is built in with Apache-FOP
- #2 - 06/15/2009 01:51 PM - debi staggs
The ability to add a section header has already been added. Still need to incorporate them into the report model and we will be able to close this bug.
- #3 - 06/29/2009 08:53 AM - ben leinfelder
this appears to be working now
