| <b>Description</b><br>Create diagram and model classes required for ItemOfInterest, and ItemsOfInterest List. This is a reporting-specific subset of the workflow model.<br>An item of interest might include<br>actor<br>director<br>workflow parameter<br><br>It may also include<br>Another item of interest, or a collection of items of interest(in the case of composite actors)<br><br>And<br>an item of interest contains one or more ReportItems. |                 |                        |            |

History

#1 - 05/19/2009 11:13 AM - debi staggs

The class 'Item' was created, and this is used to build a list of 'items'. This list has references to ports that appear in the workflow which have been marked by the user as 'of interest' for reporting.
