Description			
For parsed exams that include images, the QTI XML generated does not conform to the QTI specification. The error (in Metacat logs) is: cvc-complex-type.3.2.2: Attribute 'imagetype' is not allowed to appear in element 'matimage'.			

History

#1 - 11/12/2008 04:15 PM - ben leinfelder

incorrect attribute spelling was used (i think QTI dropped the ball here):
"imagetype" was used but it should have been "imagtype"
