

## FIRST - Bug #3662

### Modify PDF pane navigation controls on vector rasterization page

11/13/2008 03:56 AM - Ryan McFall

<b>Bugzilla-Id:</b>	3662		
<b>Description</b>			
Should next page and previous page navigate through the pages containing vector images rather than sequentially through all pages? During the user test, one student didn't notice the list at the left and navigated using the page buttons, which resulted in extra work.			

#### History

Fixed by adding a label at the bottom of the page (near the page navigation controls) that indicates whether or not there are vector images on the page, and points them to the list on the left if they navigate to a page without any vector images.
