Description

After submitting the information to create a new login account on dev, the next page has no information (skin frames only). I reproduced this for nceas and esa skins.

The apache error log shows the following when going to the "Create a new account screen":

```
[Fri Jan 02 16:55:08 2009] [error] [client 128.111.242.186] Use of uninitialized value in concatenation (.) or string at /var/www/edu.ucsb.nceas.dev/knb/cgi-bin/ldapweb.cgi line 127., referer: http://dev.nceas.ucsb.edu/knb/cgi-bin/ldapweb.cgi?cfg=esa
```

The apache error log shows the following after entering information and hitting the register button:

```
[Fri Jan 02 16:55:08 2009] [error] [client 128.111.242.186] Use of uninitialized value in substitution (s///) at /usr/lib/perl5/site_perl/5.8.5/Net/LDAP.pm line 107., referer: http://dev.nceas.ucsb.edu/knb/cgi-bin/ldapweb.cgi?cfg=esa
[Fri Jan 02 16:55:08 2009] [error] [client 128.111.242.186] Use of uninitialized value in substitution (s///) at /usr/lib/perl5/site_perl/5.8.5/Net/LDAP.pm line 109., referer: http://dev.nceas.ucsb.edu/knb/cgi-bin/ldapweb.cgi?cfg=esa
[Fri Jan 02 16:55:08 2009] [error] [client 128.111.242.186] Use of uninitialized value in substitution (s///) at /usr/lib/perl5/site_perl/5.8.5/Net/LDAP.pm line 110., referer: http://dev.nceas.ucsb.edu/knb/cgi-bin/ldapweb.cgi?cfg=esa
[Fri Jan 02 16:55:08 2009] [error] [client 128.111.242.186] Use of uninitialized value in substitution (s///) at /usr/lib/perl5/site_perl/5.8.5/Net/LDAP.pm line 141., referer: http://dev.nceas.ucsb.edu/knb/cgi-bin/ldapweb.cgi?cfg=esa
```

History

#1 - 01/05/2009 01:52 PM - Shaun Walbridge

It looks like the ldapweb.cgi hasn't been updated for the most recent round of properties changes, and needs to have various values set which don't currently exist directly within metacat.properties.

#2 - 01/06/2009 10:19 AM - Shaun Walbridge

Updated ldapweb.cgi with proper properties definitions, is correctly generating pages but still needs further testing, especially of special cases like ESA accounts.

#3 - 01/12/2009 03:22 PM - Shaun Walbridge

Fixed by making ldapweb.cgi match the current properties used by Metacat.

#4 - 03/27/2013 02:24 PM - Redmine Admin

Original Bugzilla ID was 3720
