Metacat - Bug #3730

Implement an isRequired field in the configuration metadata

01/07/2009 08:44 AM - Michael Daigle

Status:	New		**Start date:**	01/07/2009
Priority:	Normal		**Due date:**	
Assignee:	Michael Daigle		**% Done:**	0%
Category:	metacat		**Estimated time:**	0.00 hour
Target version:	Unspecified		**Spent time:**	0.00 hour
Bugzilla-Id:	3730			

Description

Add a field to tell if a configuration field is required so metacat can verify on the browser side at submit time.

This is one step toward having a form definition language.
