

Metacat - Bug #3732

Sitemap test is failing

01/08/2009 08:53 AM - Michael Daigle

Status:	Resolved	Start date:	01/08/2009
Priority:	Normal	Due date:

Target version:	1.9	Spent time:	0.00 hour
Bugzilla-Id:	3732		
Description			
The sitemap junit test fails because it does not find a file that should be there. It looks like the file is not writing out fully at test time, but writes out when the tests are complete.			

History

#1 - 01/12/2009 10:07 AM - Michael Daigle

The sitemap file was being read into a 1024 byte buffer in the test case. Once the sitemap was greater than 1024, the test failed.

Used the FileUtil file reader methods to get sitemap.
