#### Description

A few skins currently use a javascript alert box requiring confirmation before searching all data on the site with the message "Show all data in the KNB?":

style/skins/default/include\_searchbox.jsp  
style/skins/knb2/portalpages.js  
style/skins/nrs/index.jsp  
style/skins/obfs/index.jsp  
style/skins/nceas/search.js

At a minimum, this should be changed to reflect the skin name, but better yet, it'd be great if we could query the number of rows in xml\_documents, and if less than say, 500, just skip this message.
