Description			
Dragging an image onto a question doesn't seem to work in terms of undo. The buttons become active, but they don't actually do anything.			

History

#1 - 04/21/2009 10:19 PM - Sandeep Namilikonda

UNDO fails to reverse the following changes:

- Image added by user
 - Image disposal does not revert "show images" button to "hide images"
 - Add question
 - Choose question from source
 - Changing a question type

UNDO works in the following cases:

- copy/paste/cut
 - edit mode to done mode
 - dispose question and then add question
 - adding/deleting a choice is reversible
 - other edit features such as bold, italic, superscript, and subscript
