FIRST - Bug #3748

Undo doesn't work for image manipulation + other contexts

01/13/2009 01:58 PM - Ryan McFall

Status:	New	**Start date:**	01/13/2009
Priority:	Normal	**Due date:**	
Assignee:	Ryan McFall	**% Done:**	0%

Target version:	client-prototype	**Spent time:**	0.00 hour
Bugzilla-Id:	3748		

Description
Dragging an image onto a question doesn't seem to work in terms of undo. The buttons become active, but they don't actually do anything.

History

#1 - 04/21/2009 10:19 PM - Sandeep Namilikonda

UNDO fails to reverse the following changes:

```
– Image added by user
    – Image disposal does not revert "show images" button to "hide images"
    – Add question
    – Choose question from source
    – Changing a question type
```

UNDO works in the following cases:

```
– copy/paste/cut
    – edit mode to done mode
    – dispose question and then add question
    – adding/deleting a choice is reversible
        – other edit features such as bold, italic, superscript, and subscript
```
