Metacat - Bug #3756

Passwords should not persist to backup files

01/19/2009 12:41 PM - Michael Daigle

Status:	Resolved		**Start date:**	01/19/2009
Priority:	Normal		**Due date:**	
Assignee:	Michael Daigle		**% Done:**	0%
Category:	metacat		**Estimated time:**	0.00 hour
Target version:	1.9		**Spent time:**	0.00 hour
Bugzilla-Id:	3756			
Description				
Currently, the unaffiliated login password gets persisted to the auth.properties.backup file. This should never happen for a password.				

History

#1 - 01/20/2009 12:03 PM - Michael Daigle

Added code to check if field is a password. If so, don't back it up.

#2 - 03/27/2013 02:24 PM - Redmine Admin

Original Bugzilla ID was 3756
