Bugzilla-Id:	3758		

Description

Registering a dataset with all fields filled in and an attached data doc comes back with a blank screen. The apache error log has the following error:

[Tue Jan 20 14:50:15 2009] [error] [client 128.111.242.154] Could not open: Permission denied at /var/www/edu.ucsb.nceas.dev/knb/cgi-bin/register-dataset.cgi line 1053., referer: <http://dev.nceas.ucsb.edu/knb/cgi-bin/register-dataset.cgi?cfg=nceas>

History

#1 - 01/20/2009 12:16 PM - Shaun Walbridge

Temporary directory wasn't writable by apache on dev. Updated to enable file writing, should now work as expected.
