#### Description

When registering a dataset with a data file, Metacat is throwing the following exception:

```
MC 14:29:17,633: [ERROR]: Problem with parsing: General error checking user permissions: User tried to update an access module
when they don't have "ALL" permission! [edu.ucsb.nceas.metacat.DocumentImpl]
org.xml.sax.SAXException: General error checking user permissions: User tried to update an access module when they don't have
"ALL" permission!

...

```

#### History

##### #1 - 01/21/2009 04:30 PM - Michael Daigle

Metacat was checking for xml\_access when uploading a new data file. Changed so that it only checks for existing data files.

##### #2 - 03/27/2013 02:24 PM - Redmine Admin

Original Bugzilla ID was 3763
